BRIEF WAR NEWS

French reports say that 12,000 to 16,000 dead bodies lie unburied between Ypres and the coast and that the health of the soldiers in that section is menaced.

Practically the entire starboard side of the French cruiser Leon Gambetta was blown out by a torpedo launched by an Austrian submarine, which sent the vessel to the bottom off Otranto. Turkey's army demonstrated last week that even under German tutelage it has not improved its morale over the form it showed during the Balkan war. With every natural advantage favoring the defense, the Turks have been unable to prevent a British army under General Ian Hamilton landing at four places on the Gallipoli peninsula.

The battle of Ypres ended with the Germans consolidating most of the 30 square miles of territory they have won from the allies. The engagement has had no result of major importance. During the battle of Ypres, it was reported the Germans were using 17-inch guns, the newest output of the Krupp works. Confirmation of the presence of record-making artillery within the German lines came when Dunkirk was bombarded from the German positions near Nieuport. This is a distance no less than 17 miles. Never before have field guns been able to fire so far. So amazed were the authorities at Dunkirk that they believed the bombardment came from a German squadron along the Belgian coast until airmen revealed the true source.

Along the east Prussian frontier and in central Poland there has been a renewal of the fighting, which the spring floods interrupted, while in the Carpathians where the ground is drying, the Russians and Austrians again are contending for Ussak pass.

SHORT NEWS NUGGETS

More than half the city of Colon was swept by a disastrous fire.

The American steamer Minnesota, which went aground at the entrance to the inland sea of Japan on April 14, was floated by the use of dynamite.

The Westinghouse Electric company of New York, is said to have received an order for \$30,000,000 worth of big guns for one of the warring nations, and as result of the new business the concern's stocks jumped to 104.

With Europe eating up America's cotton in the form of gun cotton by the thousands upon thousands of pounds, farmers through the southwest are planning this year to plant as much, or more, cotton than heretofore.

The prices of most animals—hogs, cattle, sheep and chickens—to producers of the United States on April 15 averaged about \$6.59 per hundred weight. A year ago the average was \$7.40. These figures were announced by the federal department of agriculture.

An arbitration award advancing to some extent the rates of pay of 64,000 locomotive engineers, firemen and hostlers employed on 140,000 miles of line of 98 western railroads in the great area of the United States and Canada bounded on the east by the Illinois Central and the Great Lakes, was signed at Chicago.

Aid Asked For Mexico

Washington.—Reports of hunger and suffering are coming into the American Red Cross headquarters from all parts of Mexico. Supplementing its appeal to the American people for aid, the Red Cross sent a telegram to the governor of every state, which read:

"There are a large number of unfortunate people in Mexico facing death by starvation, and the president of the United States and the American Red Cross make an appeal for money and food supplies. Gifts of corn, beans, rice and flour will be accepted at any point in the United States and forwarded by the Red Cross to Mexico through the most practicable route to reach the people in distress.

"Money may be sent to local Red Cross treasurers or to Red Cross headquarters in Washington. Before donated supplies are sent from any point, instructions from Washington will be furnished for routing."

Mackensen Closing in on Przemysl. Berlin, via wireless to London.—General Mackensen's great net is closing in upon Przemysl. Austro-Germans are within a few miles of the Przemysl-Lemberg railway. Despite some recent reverses the Germans believe the fall of the great Gallican fortress is near.
